THE DAILY NEWS.

Sarahphim.

Are you beau...
Sarahphim?
Have you snub or Grecian noss,
Does a smile white teeth disclose,
Does & dimple sweet repose
In your chin?

Have you black and glossy hair, Sarahphim?
Over forehead broad and fair—
With your arching eyearo ws rare—
Do you'riz or braid it there,
Earahphim?

I am treining to surnaise, Sarahphim,
Mave you sparkling, speaking eyes,
Does your besom tall and rise
In response to lovers' sighs,
Sarahphim?

Though our eyes have never met, My fond heart can ne'er forget,
And 'tis wildly beating yet
For its little stranger pet,
Sarahphim?

Have you ever had a beau,
Sarahphim?
Is the fellow fast or slow?
Tell him, if he deesn't know.
I'll not leave you, not for see,
Sarahphim.

AYER'S CHERRY PECTORAL, Colds, Whosping Cough, Bronchitis, Asthma and Consumption. PROBABLY NEVER BEFORE IN THE WHOLE

PROBABLY NEVER BEFORE IN THE WHOLE history of medicine has anything won so widely and so deeply upon the confidence of mankind as this excellent remedy for pulmon ry complaints. Through a long series of years, and among most of the races of men, it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and threat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that to milder forms of disease and to young shildren, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the threat and lungs. As a provision against sudden attacks of ferent, it should be kept on hand in every family, and indeed, as all are sometimes subject to colds and coughs, all should be provided with this antidate for them.

Althemys settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled have been completely oured, and the patient restored to sound health by the Cherny PROGORAL. So complete is its mastery over the diseased of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherny PROTORAL they subside and disappear.

Singeles and Public Sprakers find great protection from it. ASTRMA is always relieved and often wholly cured by it.

BROWGHITS is generally cured by taking the CHERBRY PROTORAL in small and frequent doses.

So generally are its virtues known that we need
not publish the certificates of them here, or do mere
than assure the public that its qualities are fully

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC. Are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is howed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

inviting.

Not only do they cure the every-day complaints of everybody, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disorder of Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flattlency, Loes of Appetite, Jaundice, and ether kindred complaints, arising from a low state of the body or obstruction of its functions. They are an excellent alterative for the renovation of the blood and the restoration of tone and strength to the system debilitated by disease.

Analysis of Rhodes' Standard Superphosphate of Lime. Soluble Phosphoric Acid......9.06

The above analysis indicates a Manurial Superphosphate of Lime of the highest grade ordinarily found in the American market. Its large amount of Soluble Phosphoric Acid supplies an active nutriment for the development and maturity of the fruitage. The Sulphuric Acid which it contains, by chemical affinity with the elements of most soils contribute to its Fertilizing Properties. To show its best effects, this Superphosphate should be applied under and in contact with the Seed, and with a moderately shallow covering of soil.

A. MEANS. Inspector, Savannab, Chatham County, Georgia.

G. H. WILLIAMS, Assistant Chemist. February 13th, 1869. We guarantee that every package of RHODES' STANDARD SUPERPHOSPHATE shall fully come up to the above analysis.
